Mark Mandell-Brown, M.D., Director

GuttersShutter Company
862 E. Crescentville Road
Cincinnati, Ohio 45246

Attn: Mark Steinberg

June 29, 2016

Dear Mr. Steinberg:

As a plastic surgeon, attention to detail and delivering an excellent result is something we strive to achieve for every individual. Your GutterShutter company exceeded my expectations with the recent installation of my home gutter system.

Our home had a high pitched roof with elaborate angles. Since we moved in 24 years ago, heavy downpours caused the gutters to overflow. Your crew assessed that the builder's installed 4 inch gutters were not sufficient for our home.

With the 6 inch gutters and protective system, the rain no longer overflows the gutters. The replacement went smoothly, the installation crew was professional and cleaned up perfectly. The color match is also perfect.

I would recommend GutterShutter highly and I can not thank you enough for a job well done. If I can ever be a reference, I would be honored as the GutterShutter Company did an incredible job.

Sincerely,

Mark Mandell-Brown MD
